

Errata for 25th (3rd Edition) Anniversary Redesign of

Metamorphosis Alpha

Credit to [Craig Brain](#) for highlighting several of these in his excellent article on [The Metamorphosis of Metamorphosis Alpha](#). (links no longer up 12/03)

Location†	Correction
p5r-6 p5r-2 p54r-22 p55l+16	Misspellings: “sill” should be “still”, “core” should be “Corps”, “lose” should be “loose”, and “It” should be “If”.
p9l-23, p10l+29, p11r-25 p13l-15 p30l+11	The size description of Levels 7, 15, and 17 should read ½ mile high. The size description of Level 10 should read ¼ mile high. Question mark (“?”) should be replaced with “half”.
p20l-9 p21r-30	“N” should be in bold. “Insecticide Sprayer (WC 17):” should be in bold.
p25l+15 p22r-17	“(, AC 14” should be “(4 hp/system), AC 8” “60 miles per hour” should be “30 miles per hour”.
p16l+11	Delete “plus two more (the bonus for being human)”. [The +2 being referenced (p. 14) was added to a natural roll (on two dice) of 8. 10 was the adjusted and final Constitution for the human PC in this example.]
p16r+12	“attacks” belongs in the right hand column
p6+5, p6+16, p6+26	Grey box with the stats for “Combat Robot Alpha”, in the middle of the equipment, away from the other robots and creatures, with no explanation as to why.
p6+5, p6+16, p6+26	Grey box with the stats for “Combat Robot Alpha”, in the middle of the equipment, away from the other robots and creatures, with no explanation as to why.
49	The gray box “Using The Chart”, which details the use of the Item Complexity Chart on page 55.

†Page, left or right column, and line number as counted down from the top (+) or up from the bottom (-), skipping blank lines.

¹Some might argue that the errors in Master Sergeant Dupper’s Disaster Record on page 5 are intentional and “in character”, but a military person misspelling “Corps” is normally unforgivable, and this log was probably dictated in any case! .
